NOTA X) Punto di carico/di riconsegna. Ogni punto di presa in carico/di riconsegna è allacciato a una stazione abilitata al servizio merci. Non si può, nella lettera di vettura CIM/lettera carro CUV, indicare un punto di carico/di riconsegna come stazione di partenza/di destinazione, ma lo si può indicare, nei campi relativi al "Luogo di carico/di riconsegna". Le distanze definite per una stazione abilitata al servizio merci sono utilizzate anche come distanze del punto di carico/di riconsegna allacciato.

NITE X) Loading yard = each loading yard is assigned to a freight depot.

In the consignment note, a loading yard must not be given as the destination/delivery depot but may be given in the "take-over/delivery location" box as the yard at which the consignment is to be made available. In order to determine distances for loading yards, the distances of the freight depot responsible are used as a basis.
